Dear Derrick

**NATIONAL NUCLEAR ARCHIVE**

**CLEAR ARCHIVE**

Your letter of 11<sup>th</sup> February (DSG [2011] C145) seeking confirmation of our commitment to the National Nuclear Archive (NNA). In December 2010 we commissioned further work on the current activities and costs associated with information governance and knowledge management across the estate. Specifically, a detailed revised programme for the next 12 months is to be primarily focussing on an evaluation of the current records management across the estate. Potential interim solutions are being explored.

Thank you for your interest in the NDA's commitment to the National Nuclear Archive. The NDA Executive is currently reviewing the activities associated with the management of the estate. Specific work has been developed primarily focussing on the current position across the estate.
