

Email sent to DSG Secretary for DSG members on 30<sup>th</sup> March 2011

June,

Just writing to thank you for the letter, which I have just received.

I always enjoyed attending DSG meetings. It is quite inspiring to see a community coming together in the way that the DSG does to consider the impact of the local nuclear facilities and, in particular, what can be done to sustain the community as they are run-down.

Best of luck to you all in the future.

Regards

**Ian Bramwell**
