

DSG(2011)C251

June

I have been given your name as a contact for the Dounreay Stakeholders Group whom I believe may be interested in a petition I have been collecting signatures for over the last two months.

The petition is against the proposed change to services at Dunbar Hospital. There has been copies around Thurso as well out west, and at this point in time I have more than 3400 signatures with some petitions still out.

Having spent two Saturdays at supermarkets collecting signatures I can confirm the public have very strong feelings against the proposed changes, I believe that the community has concerns as to what is going to happen, for example getting to Wick, especially during the winter.

I have attached part one of five of the petition as the file size only allows me to send 2 mb at a time I will forward the remainder shortly.

Regards
