Welcome

Dounreay Planning Summary Phase 2

Update to DSG

Alastair MacDonald
Change Director, Dounreay
12th September 2012

Topics

- Planning Law
- Dounreay Planning Framework
- Phase 1
- Phase 2 – The Current Application
 - What Now?
- Phase 3

Planning Law

- The Planning etc. (Scotland) Act 2006.
- The Town & County Planning (Hierarchy of Developments) (Scotland) Regulations 2009.
 - National
 - Major
 - Local
- EIA (Scotland) Regulations 2011.

Dounreay Planning Framework

- Highland wide Local Development Plan.
- Dounreay Planning Framework – January 2006
- Draft revision of DPF due 2012
 - HC Report to PED Committee for 19th September
 - HC document drafted for consultation

Phase 1 (2005 – 2013)

- Phase 1 originally covered 2005 – 2010 but has been extended to 2013 when Phase 2 construction (Shaft and Silo Retrieval Projects) starts.
- Phase 1 covered all new builds during the early stages of the Plan.

Phase 2 (2012 – 2018) - Scope

Dounreay

- Shaft & Silo Retrieval Facilities
- Re-use of existing Store
- Demolitions

Shaft & Silo

Dounreay

- 2013 – Start Construction
- 2016 – Start retrieval

Waste

Dounreay

- Shaft – 750m³
- Silo – 500m³
- Shielded Containers

Phase 2 – Pre-Application

Dounreay

- Consultation – Highland Council, Regulators, Stakeholders (e.g. DSG), Public.
- Public meetings week commencing 10th September.
- A Consultation report will be submitted to Highland Council with the Planning application. It will detail the outcomes of Consultation.

Phase 2 – What Next

Dounreay

- Planning Permission in Principle (1st stage) submit in mid October.
- Submitted electronically, all details available on ePlanning website. – Ref: 000045213
- Includes forms, plans, drawings, map, Planning statement (design), scope of EIA, etc.
- Approval of Conditions (2nd stage) next spring.

Phase 3 (2018 – 2023)

Dounreay

- Final phase of decommissioning will be focused on demolitions including those of reactors and subject to EIA.
- Only new build is potentially a LLW Pits Retrieval facility.
- Interim End State includes void filling, capping/landscaping, ground remediation.

Our Mission – Phase 3

Dounreay

Conclusions

Dounreay

- Consultation is a key element of the planning process.
- A phased approach provides transparency.
- Multi stage provides flexibility and fuller details will be given as they become available.
