Mr Steve Firth
Ministry of Defence

Dear Steve

DOUNREAY STAKEHOLDER GROUP

At the last DSG Site operations sub group meeting, held on 20th January 2016, we were pleased to receive a presentation on the transport of fuels from the Vulcan site.

The resulting discussion covered the future options for the site and it was again stressed that it would be useful to have community involvement at a time when all options were being considered and not when a decision was made.

For that reason I am writing to you to request that you and/or Simon Tinling attend our next sub group meeting in April (13th April at 1900 hrs) to provide an update on the future options for the site.

Can you please respond to the DSG Secretariat to confirm whether this date is possible for you to meet with us.

Yours sincerely
