Dear Ms Cunningham

#### **SCOTTISH GOVERNMENT, SCOTTISH NUCLEAR SITES MEETING**

As you are aware, the Scottish Government Radioactive Waste team meet with a number of key stakeholders twice per year to update and discuss matters relating to nuclear sites; this includes operational and decommissioning sites.

Site stakeholder group representatives, from Chapelcross, Hunterston and Dounreay, also attend these meetings and find them useful in that it allows us to question site operators and regulators. Topical presentations, mainly on a strategic level, are also provided at these meetings which we find of interest and which allows us to put into context site operations when the strategic direction is explained in full.

For some time we have been asking whether it would be useful to have you attend one of these meetings. We felt it would be invaluable for you to take part to get a real feel for some of the challenges our sites are facing and also the challenges for the future when these sites come to the end of the decommissioning life and what this means for our communities.

With this in mind the SSG's collectively took an action to write to invite you to the next meeting which has now been scheduled for 23rd March 2017. We do hope that you are available to attend and look forward to receiving your response.

Yours sincerely
