Dear Simon

NUCLEUS

As you are aware, DSG takes a keen interest in the progress of Nucleus and are pleased to see the facility being utilised by both nuclear and community interest groups. We are equally pleased that the facility has provided a number of employment opportunities.

You will also aware that David Flear continues his long association with Nucleus as the DSG representative on the Nucleus Advisory Board. At the last Advisory Board, David has informed us that the Archive is almost at capacity now and therefore there is a need for an extension.

Nucleus was always designed to expand if necessary but given the length of time it took to find the original funding for the Archives we are concerned that NDA may consider alternative arrangements.

DSG representatives would like to take the opportunity to meet with you to discuss the way forward.

We look forward to your response.

Yours sincerely
