

CIVIL NUCLEAR CONSTABULARY
DSG UPDATE, April 2020

It is now 4 months since I took over from Pat Green at Dounreay OPU and I have been overwhelmed by the warm welcome that my family and I have received from the local community.

Whilst Covid-19 has created a huge number of challenges for us all, the CNC continue to maintain our full operational requirements whilst implementing social distancing wherever possible.

The CNC are able to utilise the new Coronavirus legislation introduced by the UK and Scottish Government on the 27th March within our jurisdiction through the 4E's of Engage, Encourage, Explain and Enforce.

In early March, I am thrilled to report that one of our members of Police Staff, Alison Gunn, made CNC history by becoming the first serving police staff member to receive the force's long service award. She was given the honour to mark her 31 years within the CNC. She also received an outstanding achievement commendation for her professional contribution to the development of the police control room training programme. Her husband, Alistair, and two sons Darren and Liam were at the presentation ceremony along with many of her CNC colleagues as well as Kenny Douglas, Dounreay Site Restoration Ltd (DSRL) managing director, and Mac MacGill, DSRL security and resilience director. T/Supt Andy Peden presented Alison with both awards and said: "I'm absolutely delighted to be hosting this award ceremony to recognise Alison's length of service and commitment to the organisation. She is an asset to the team and we are all very proud of what she has achieved."
