

**Dounreay Stakeholder Group - Site Restoration sub group, April 2020**

Update report from the NDA

Prepared by Stuart Pyper, NDA

Obviously the situation on site is dominated by the measures in place in response to the current COVID 19 Pandemic situation.

The following points are noted by the NDA

- NDA welcomes the return of Mark Rouse as MD of DSRL. We would also take this opportunity to thank Kenny Douglas for his interim leadership.
- Following the restrictions caused by COVID 19, the Dounreay site was rapidly brought to a safe, quiescent state. This is in line with the rest of the NDA estate, and has been done with the approval of the regulators.
- NDA continues to interface with both Scottish and UK Govts regarding support offered during this period. The NDA are working with DSRL to ensure all Govt reporting requirements are met, including those related to supporting the wider supply chain through this period.
- We would like to note the rapid and efficient work done by DSRL to equip staff with IT equipment to allow working from home where this has been found to be possible and appropriate.
- NDA continue to support DSRL, and the other Site Licence Companies across the estate, in empowering their staff to volunteer during the 'lockdown' and we are supportive of donations, both monetary and of equipment, to the locally coordinated resilience efforts in the battle against COVID 19.

Stuart Pyper
