## My vision for the future

'To be a modern, transparent regulator delivering trusted outcomes and value'

### Influencing proportionate improvements

- More consistent enabling regulation, strategic, risk-based interventions
- Integrated and collaborative approach across our regulatory purposes
- Improvements on sites receiving enhanced regulatory attention
- EDF transition from AGR operation towards defueling
- Enabling innovation within industry and ONR

### Inspiring stakeholder confidence

- Exemplar of openness and transparency
- Informing government policy and influencing global regulation

### Creating a culture of inclusion and excellence

- Investing in our staff: wellbeing, inclusive culture, skills
- Effective leadership and change management

### Modernising how we work

- Joined-up teams, functions, divisions and directorates
- Focused modernisation: mobile and digital technology, cyber security

Openness and  
transparency

## Engaging with our stakeholders

- Effective stakeholder engagement is key to establishing and maintaining trust
- We want to be recognised as a global influencer of regulatory standards and practices, retain public trust, and increase our accessibility and reach
- Site Stakeholder Groups (SSGs) and Local Liaison Committees (LLCs) are an integral part of our stakeholder engagement approach
- The Safety Directors' Forum (SDF) is leading and driving work to develop a Good Practice Guide on SSGs and LLCs
- ONR recognises the positive impact and welcomes this work to improve transparency for public safety matters and raise standards across the industry
